STARTING AT $1699 CPU ONLY

The Apple® Power Macintosh™ 6100/66 uses the revolutionary PowerPC™ chip technology to deliver the performance that business and education users demand – while maintaining the legendary Macintosh ease of use. It runs virtually all existing Macintosh applications. Plus, the Power Macintosh 6100/66 runs applications accelerated for Power Macintosh at two to six times the speed of Mac™ computers based on the 68040 chip. Plus, the Power Macintosh 6100/66 is designed for easy expansion to keep pace with your growing needs.

The Apple Power Macintosh 6100/66 is available in three configurations, including a cross-platform model. This MS-DOS compatible system is the perfect solution for running both Mac and PC-compatible software on one computer.

PowerPC is a trademark of International Business Machines used under license therefrom.

### Choose The Configuration That Best Suits Your Needs:

**Power Mac 6100/66 Standard** — $1699
8MB RAM • 350MB hard drive • 66MHz PowerPC™ 601 processor with 256K cache and Integrated FPU • Apple Desktop Bus Mouse II™ • Built-in EtherNet support
*#92327*

**Power Mac 6100/66 CD-ROM** — $1899
8MB RAM • 350MB hard drive • 66MHz PowerPC™ 601 processor with 256K cache and Integrated FPU • Apple Desktop Bus Mouse II™ • Built-in EtherNet support • Built-in CD-ROM drive
*#92328*

**Power Mac 6100/66 CD/DOS** — $2599
16MB RAM • 500MB hard drive • 66MHz PowerPC™ 601 processor with 256K cache and Integrated FPU • Apple Desktop Bus Mouse II™ • Built-in EtherNet support • 486 DX2 DOS-compatibility card • SoundBlaster chipset for 16-bit audio with DOS applications • Enhanced networking capability
*#92379*

## 30-Day MONEY-BACK GUARANTEE

Many products are covered by a 30-Day Money-Back Guarantee. If you are not completely satisfied with your purchase, call our Customer Service Hotline at **1-800-248-9948** for a Return Authorization Number and a full refund of the original purchase price of the item, excluding shipping and handling charges. You must return the product in good condition at your expense – including packaging, documentation and, if applicable, blank warranty card. When ordering, be sure to ask our operator if your purchase is covered by the Money-Back Guarantee.

Most products are also covered by a 120 day Limited Warranty. If your product is defective in any way, just call our Customer Service Hotline and request a Return Authorization Number. Most defective software will be replaced immediately, and hardware will be repaired or replaced at our discretion. Please call for details.

## Order Microsoft Office, Word or Excel and you're automatically entered to WIN!

**Because there's no purchase necessary, you can also enter by:**
- Calling toll-free 1-800-258-2088
- Or mailing a standard 3x5" note card to: Microsoft Multimedia Giveaway, 15815 SE 37th Street, Bellevue, WA 98006-1800. Please include the following information: your full name, your work or home address and phone number, the name of your company, the 6 digit source code from the back of your catalog. All entries must be received by May 31, 1995 to be eligible for the June 15th, drawing.

**Official Rules:** You must be at least 21 years of age to enter. Entries must include the six-digit code from the back cover of your catalog. Offer valid in the U.S. only. NO PURCHASE NECESSARY. One entry per person. Prize package awarded by random drawing on 6/15/95. The winner is responsible for applicable taxes. No substitution will be made for any prizes. Prizes may not be transferred nor will cash substitutes be offered. This offer is not open to employees of Multiple Zones or any other person or organization responsible for this promotion. Late, lost, incorrect, misdirected or incomplete entries are ineligible. Odds of winning depend on the number of entries received. Only one prize package will be awarded. The winner must execute an affidavit of eligibility and release or prize package will be forfeited. Offer void where prohibited by law. To obtain the name of the winner, send a written request with a self-addressed, stamped envelope to: Microsoft Multimedia Giveaway, Winner Information Request, 15815 SE 37th Street, Bellevue, WA 98006-1800.

Macintosh
System 7.5
Upgrades your Macintosh.
It's powerful, it's easy to use—it's the new operating system for your Macintosh.

# NOW YOU CAN UPGRADE TO Apple Macintosh System 7.5

Authorized Catalog Reseller

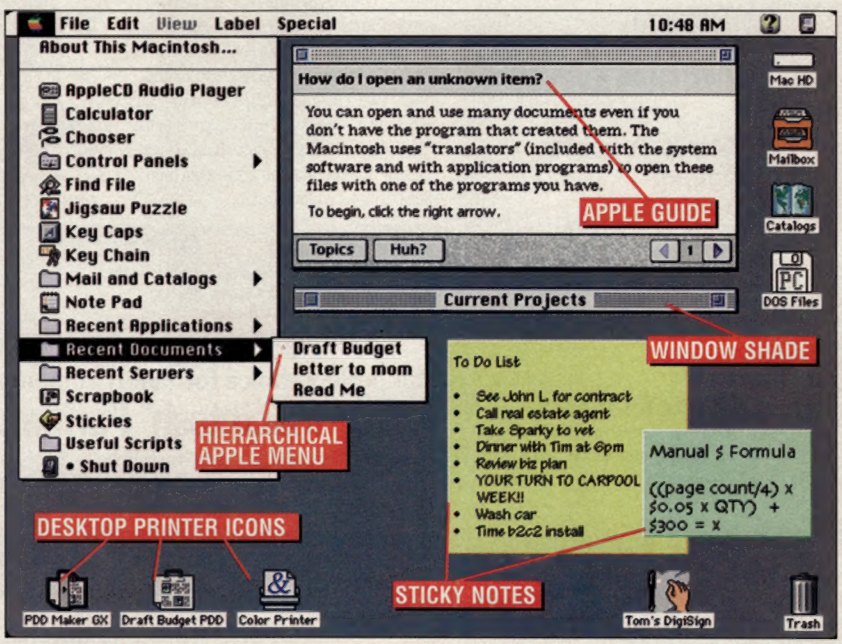
**FOR ONLY $98.98**

PTS

## It's faster. Smarter. And lets you be more productive.

Whether you use an Apple,® PowerBook,® or Apple Power Macintosh® computer, System 7.5 will help you be more efficient and productive. System 7.5 helps you work smarter, faster, and more productively – individually and with others – from the moment it's installed.

System 7.5 boasts over 50 new features, including the active assistance of Apple® Guide that lets you combine learning and doing. You'll also find built-in utilities that simplify working with DOS and Windows disks and data files; new additions that make it easy to work with others; advanced graphics and printing technologies that simplify printing, deliver better color management, and offer advanced typography; and expanded features for mobile computing such as improved battery management, and easy file synchronization.



## UPGRADE YOUR MACINTOSH

Designed for both 680x0 and Apple Power Macintosh® systems, System 7.5 delivers greater speed, efficiency and power.

- Tailor your system to your individual needs.
- Learn new tasks, step-by-step, with the Apple Guide and customized assistance.
- Work faster! Automate complex/routine tasks with AppleScript™ and a new scriptable Apple Finder.™
- Enjoy seamless compatibility with DOS and Windows data files, plus complete support for TCP/IP networking protocols.
- Print documents and manage print functions faster and more intuitively.
- Benefit from advanced text and graphics support with Apple QuickDraw™ GX.
- Collaborate with others more effectively with Apple PowerTalk™ technology and FREE AppleMail.™
- Get more performance from your PowerBook and take advantage of new PowerTalk support.

**System Requirements:** *Mac Plus or later with a minimum of 4MB RAM; for PowerTalk and QuickDraw GX, a min. of 8MB RAM and a 68020 processor is required. When installed on a Power Macintosh, System 7.5 requires a min. of 8MB RAM; for PowerTalk and QuickDraw GX, a min. of 16MB RAM is recommended.*

- Grolier's Multimedia Encyclopedia
- San Diego Zoo Presents Animals!
- TIME Magazine Almanac
- Benjamin Bunny

**Performa 575 Standard** $1499
5MB RAM • 250MB hard drive • 33MHz 68LC040 processor • 14" RGB color display, keyboard and mouse • 1MB VRAM for 32,768 colors • Built-in CD-ROM drive • External 9600 bps FaxModem
#92310

### A super multimedia system for your family

## Apple® Macintosh® Performa® 550

The expandable Apple Macintosh Performa 550 lets you make the most of multimedia applications as well as personal productivity programs – all at an affordable price. It combines the simplicity and convenience of an all-in-one design with the versatility of a built-in AppleCD™ 300i double-speed CD-ROM drive and high-quality stereo sound. There's even a built-in microphone so you can add sound to many Mac™ applications. But the Performa 550 doesn't stop there. It also includes a TelePort/Bronze 9600 bps fax/modem from Global Village Communication.

ONLY **$1299**

## The complete, convenient, and affordable answer to your mobile computing needs!

## Apple® PowerBook® 150

The Apple® PowerBook® 150 computer combines the performance of a 68030 microprocessor with the convenience of a compact, lightweight notebook system. It includes an integrated, high-quality display, SCSI and serial ports, and a modem port. All in a system that weighs only 5.5 pounds.

It's not only portable, but flexible as well. The built-in Apple SuperDrive® floppy disk drive lets you read, write, and format Macintosh, MS-DOS, Windows, OS/2, and ProDOS® disks. You can connect to printers or share files with other computers on a network. And with an optional fax/modem, you can send and receive faxes or e-mail, plus tap into a variety of on-line information and communica-tion services. The PowerBook 150 comes with the PowerBook Mobility Bundle, a pre-installed collection of software for communications, power management, information management, and compatibility needs.

ONLY $1389

**PowerBook 150 Standard** — $1389 #92350

**If you need assistance with your purchase, our sales advisors are ready to help!**

Attention mobile, remote and local AppleTalk network users:

# Gain easy access to the Internet and beyond... with Apple® IP Gateway

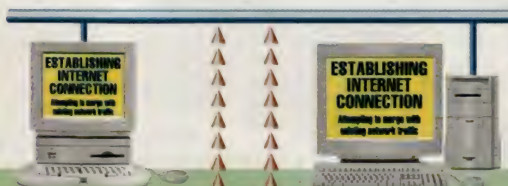
- **Translates data between AppleTalk® and TCP/IP networks transparently**
- **Simplifies Internet firewall administration**
- **Supports up to 253 simultaneous Internet connections**

Now Mac users with Apple Remote Access (ARA), LocalTalk,® or any other AppleTalk network connection can connect easily to an Ethernet-based TCP/IP network to access the full range of Internet Protocol (IP) services. Whether you're a mobile, remote or local AppleTalk network user, Apple IP Gateway will work for you.

It offers dynamic addressing, network security and detailed client monitoring – so it's easy to administer and control.

Used in conjunction with the Apple Internet Router software, Apple IP Gateway provides IP access to any Mac™ on any AppleTalk network that is part of the router's network. And with an Apple Remote Access Personal or MultiPort Server, it provides ARA clients with remote access to IP and AppleTalk services – just as if there were a local connection. For AppleTalk users, the Apple IP Gateway provides an easy, affordable and secure way to take advantage of the vast resources available on IP networks. ***#92342***

**ONLY $87.98**



**Put your network group in the carpool lane to the Information Superhighway! Apple IP Gateway gives any user on your network easy access to the Internet without requiring individual connections or user I.D.'s.**

**Members of your network group can even dial in from a remote location – via modem – and connect to Apple IP Gateway using Apple Remote Access.**

** Includes software for one client. Additional client software must be purchased or licensed separately.*

**UPGRADE FOR ONLY $59.98**

Get plenty done at the office without actually being there.

## Apple Remote Access Personal Server

Includes powerful new client/server capabilities that can help make an individual or small organization even more productive – no matter where they are.* Everything you need to allow your Mac™ to communicate with another Mac or an entire AppleTalk network. Check your e-mail, access the company database, collaborate with coworkers, or print to the network printer. It's as simple as working at your office. ***#96678***

- Benchmark testing lets you compare performance

ONLY $98.98

Here's the most comprehensive way to diagnose and monitor the performance of your Mac™ or Apple PowerBook computer. And it's also the only one available that's based on the same powerful testing programs Apple uses in manufacturing Macintosh® computers.

Personal Diagnostics combines hardware testing, system profiling, disk directory repair and software checking in one easy-to-use package. Test results are presented in easy-to-understand graphics and tables. Measure your computer against updated performance benchmarks – then learn what changes will optimize your Mac's performance!

And now with version 1.1, Apple Personal Diagnostics is also Apple Macintosh System 7.5 compatible and supports Apple Power Macintosh™ and Apple PowerBook® & Performa 500 Series computers. ***#96744***

## Share Your Macintosh Without Worry

### Apple At Ease™ 2.0

- Gives users access only to applications and documents you designate
- Protects sensitive documents from unauthorized access
- Saves 200K of RAM – perfect for System 7 Macs with limited memory capacity

ONLY $44.98

At Ease® 2.0 replaces the Finder desktop to give you a safe, friendly, and easy-to-use environment for sharing a Macintosh in a small business, home office, or household with young or novice users. It's simple to setup and lets you assign an individual password to each user and designate which applications and documents you want to make available to them. You can also grant or deny permission for users to delete and copy files, make folders, and rename items. And to secure your valuable data, you can lock the hard disk and require users to save files on a floppy disk. At Ease lets you share your Mac with confidence! ***#06296***

## Access and Manipulate DOS Files On Your Macintosh

### Apple Macintosh PC Exchange™

NEW VERSION $58.98

- Automatically makes file names MS-DOS compatible

Move files between a Mac and a PC-compatible system as easily as you can move files between two Macs.™ Your MS-DOS or Windows-formatted disks will act like Mac disks. Achieve instant compatibility with the power to bring any PC-based file into any Mac application capable of reading that file's data format. Plus, it recognizes SCSI disks, floppies and removable media formatted using MS-DOS, OS/2, Windows and Apple II ProDOS. ***#05432***

***#94535*** **Mac/PC Exchange 2.0 (version upgrade) .....$29.98**

## Produce Better Quality Multimedia Projects With Ease

### Apple Media Tool

ONLY $479.98

- Simple but powerful drag-and-drop interactivity
- Deliver projects on both Mac and Windows systems
- Runtime Maker lets you publish finished files on CD-ROM

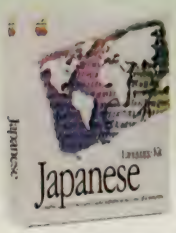
Now it's easier than ever to create commercial multimedia projects like interactive book titles, training modules, catalogs and kiosks. That's because Apple Media Tool uses object-based authoring, so you can integrate media elements such as Apple QuickTime® movies, PICT files, text and sound files by directly manipulating and connecting icons. The layout function allows you to see the flow of the multimedia presentation, which makes it easy to locate and update specific elements. You'll spend less time producing and more time creating. ***#92308***

## Easily Run Japanese Applications

### Japanese Language Kit

ONLY $189.98

Using your choice of roman or Kana keyboard layout, you can run any Japanese software program. You can even use non-localized programs, such as Nisus 3.4, that take advantage of WorldScript.® The program even includes a bilingual input method guide to help you get to work faster. ***#99443***



***#98139*** **Chinese Language Kit . . . $189.98**

## Create Your Own Computing Solutions

### Apple HyperCard® 2.2

ONLY $99.98

Creating your own custom computing solutions has never been easier. Work from ready-made templates, buttons and scripts. Import and resize PICT images. Apply color to buttons, fields, backgrounds, and cards using the color tools. Even incorporate QuickTime® movies for added impact! Your custom-designed software will look and operate with the same point-and-click operation Mac applications are known for. ***#96685***

***#96684*** **AppleScript. . . . . $148.98**

## Get Digital Photos In A Flash

### Apple PhotoFlash™

ONLY $99.98

Apple® PhotoFlash™ 2.0 software quickly and easily catalogs and enhances digital photos, then places them into documents for high impact results. Find and organize popular image file formats by using thumbnail previews in catalogs. Easily remove dust and scratches, and adjust brightness/contrast, exposure, colors and detail in photos. Then place photos in one easy step. ***#96683***

# Exciting, Innovative New CD-ROM Titles from Apple!

## The captivating, fun way for kids to learn to read & write

## WiggleWorks CD-ROM

ONLY $39.98

- **Stimulates creativity while it teaches basic skills**
- **Designed in partnership with Scholastic, Inc., a leading educational publisher**

WiggleWorks™ contains a unique combination of stories and entertaining activities on CD-ROM that make learning to read and write fun for children ages 3-8. Each of the three stories will delight your children, get their imaginations in high gear, and help them master skills in reading, writing, drawing, spelling and comprehension.

*WiggleWorks friendly worm coaches kids along and suggests fun learning activities.*

Based on comprehensive educational research, WiggleWorks helps children build the language skills they'll need to succeed in every aspect of school. It also lets them write and illustrate their own stories, or modify one of the existing books as much as they like, then print them out. And WiggleWorks lets parents extend the learning experience well past the computer with a comprehensive set of activity cards. ***#95712***

## Explore Earth and the most vital issues of our time

## Apple Earth Explorer CD-ROM

ONLY $44.98

Earth Explorer gives students, parents and teachers an interactive window on our planet. More than an encyclopedia, Earth Explorer helps you not only explore information about our environment, but also builds your knowledge through engrossing and interactive activities, including games, labs and puzzles. Its intriguing format relates science, the environment and social issues in an engaging way.

Earth Explorer explains what's happening in the environment and why. It will propel you to the center of the most vital issues of our time with easy-to-understand infographics that make even the most complex data easy to understand. With hundreds of richly illustrated articles, puzzles, slideshows and videos, Earth Explorer dramatizes the excitement of science in our daily lives. For ages 10 and up. ***#92323***

# Take complete control of all your printers

## Print Central 4.0 increases print speed and productivity by reducing frustrating delays

SPECIAL INTRODUCTORY PRICE
$448.98

### New features:

- Remote management controls Print Central from any Mac on the network.
- Support for a larger network – up to 32 print queues and 12 printers!
- Drag & drop files between queues as well as to and from the finder.
- Font management retrieves missing fonts from the server's hard disk.

Accelerated for Power Macintosh

Print Central gives you total control over up to 12 printers from any one location. By printing to queues instead of devices, jobs are passed to the first available printer so you'll never have to wait for one printer while another sits idle. It also gives you administrative authority over your work flow, letting you change a job's priority or send it to another queue altogether. For security, Print Central even maintains a job log and can restrict access to designated output devices. Adobe Systems ***#91600***

## SAVE $50 ON YOUR ILLUSTRATOR PURCHASE WITH THE ILLUSTRATOR BUNDLE

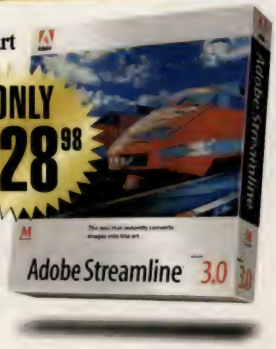
Turn your Macintosh into the ultimate designer's workstation! Adobe's new clipboard protocol lets you effortlessly transfer artwork between Adobe applications using Cut & Paste. This eliminates the hassle of exporting and importing your files. When you purchase the Illustrator Bundle, you'll receive full versions of Adobe Illustrator 5.5, Adobe Dimensions 2.0 and Adobe Streamline 3.0... ALL FOR ONLY $596.94 ORDER #91603

Turn any image into versatile PostScript line art

## Streamline 3.1

Using Adobe Streamline,™ quickly convert any black-and-white or color image into flexible Adobe Postscript™ language line art. Once your image is converted, you can scale it to any size in your drawing program, while its lines stay sharp and clear. Edit it any way you want, without losing image quality. And print it at any resolution for beautiful results every time. This is the fastest way to turn your sketches, logos, illustrations and photos into flexible line art. *#03971*

ONLY $128.98



The 3D tool for design professionals

## Dimensions 2.0

Turn your 2D artwork into 3D masterpieces in a snap! This major release includes new pen and text tools, interface innovations, and printing support. Create 2D objects or text and apply 3D effects to them. Adjust the size, shape, color, perspective, view angle and lighting of 3D objects and then print the results. Includes both 68K and Power Mac versions. *#06263*

ONLY $128.98

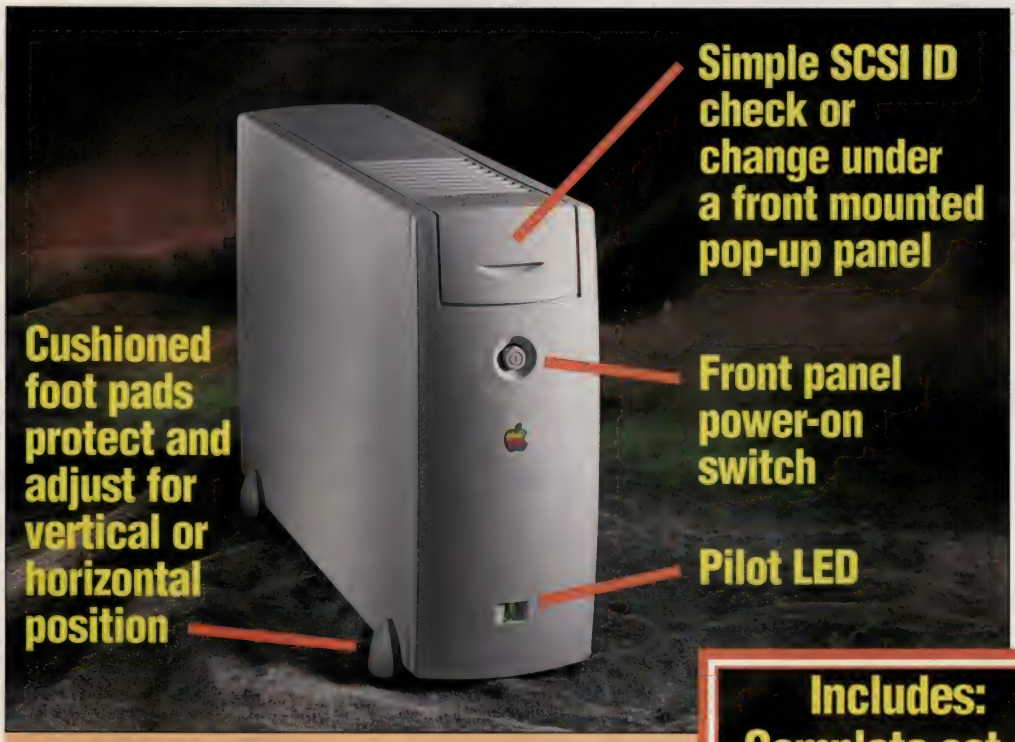
# Apple External Hard Drives

## Increase disk space without decreasing desk space



Simple SCSI ID check or change under a front mounted pop-up panel
Front panel power-on switch
Pilot LED
Cushioned foot pads protect and adjust for vertical or horizontal position

Thanks to our close partnership with Apple, you can now order genuine Apple Hard Drives directly from The Mac Zone. Choose the drive capacity that's right for you - **and order today!**

**Includes: Complete set of cables, operating software and terminator!**

## Advanced Technology

Apple External Hard Drives provide a convenient, simple storage solution, plus a wide range of capacities. Advanced design and support features make Apple Drives the clear choice for additional storage capacity for your computer or additional font storage capacity for your laser printer. With a flexible design, unique styling and interchangeable, cushioned foot pads, they can be positioned vertically or horizontally to always look and work great on your desk.

## Get Up and Running Fast

Through a powerful combination of Apple reliability, performance and attractive pricing, these external hard drives provide average Mac users with above average 3-1/2" drive technology for fast data access. They're thoughtfully designed with front-of-the-unit panel controls, power-on switch and pilot LED. This allows for easy operation and SCSI ID check or change without having to access the back of the unit. Apple External Hard Drives include everything you need: power cable, 25- to 50-pin SCSI cable, operating software - even a terminator.

**AS LOW AS $359.98**

*Size and Weight: 6.4" H x 2.6" W x 10.6" D; 3.75 lbs.; 4.5 lbs. for 1GB drive*

| Item# | Description | Average Access Time | Price |
|---|---|---|---|
| *#91828* | Apple External Hard Drive 365MB | 11ms | $359.98 |
| *#95338* | Apple External Hard Drive 540MB | 11ms | $419.98 |
| *#91829* | Apple External Hard Drive 730MB | 11ms | $465.98 |

# UNLOCK THE POWER OF YOUR MACINTOSH

## The Mac Zone shows you how easy it is to select and install the SIMMs/Memory upgrade you need.

### MORE MEMORY MORE POWER

**The key to unlocking the power of your Macintosh is additional memory.**

**The benefits of more RAM (Random Access Memory) make it the smartest investment you can make in your current system.**

**MORE MEMORY OFFERS THREE MAJOR ADVANTAGES:**

1. It allows your Mac to run today's advanced applications.
2. It increases system speed by allowing fast access to more information – saving you time!
3. It lets you open and run multiple applications at the same time – making it a snap to cut and paste between applications and streamline your work.

Your Mac uses RAM to hold the information it's working with – the operating system, application programs, and much of the data an application is using. In addition, software that runs automatically on your Mac, like QuickTime, screen savers and others, also compete for available RAM. Additional RAM will boost your Mac's performance – and your productivity.

# UNDERSTANDING THE MAC ZONE SIMMs/MEMORY UPGRADE GUIDE

This easy-to-read diagram shows the SIMM configuration for all the latest and most widely used Macs – including yours. It represents the amount of physical space your computer has available to hold the SIMMs you will use to increase your RAM.

**The color chart represents the number and size of SIMMBANKS available in your Macintosh**

**SIMMBANK**
Consists of 1-4 SIMMslots. Each bank must be completely full or empty.

**SIMMSLOT**
Every slot in each bank must have the same SIMM type installed.

However, it is acceptable to have different SIMM types in different banks, as long as each individual bank is filled completely with only one type of SIMM.

## WHAT DO I NEED TO KNOW ABOUT SIMM INSTALLATION?

**It's so easy, anyone can do it!**
A SIMM (Single Inline Memory Module) is a small, easy-to-handle card with a bank of memory chips soldered onto it. Because of this design, even users without any technical knowledge can follow the instructions in our SIMM Installation Guide and upgrade the memory in their own Macs.†

**Memory speed: less is more!**
Memory speed is measured in nanoseconds (ns). The lower the number, the faster your memory will be. The speed rating for every SIMM we carry is listed in our Easy Memory Ordering Guide on page 11e. You can install a faster SIMM than your Mac requires, but not a slower one.

**Make sure your Macintosh can handle the memory upgrade.**
While SIMM installation is easy, many older Mac models need a little help to cope with their newly obtained power. The SE/30, IIx and IIcx require certain system software in order to address any amount of RAM over 8MB, even though the SIMMs are properly installed. We highly recommend operating in System 7 or 7.5 if you intend to substantially upgrade your Mac's RAM, due to their more efficient memory handling techniques. For information on how to upgrade to Apple System 7.5, see page 1 6 or call one of our knowledgeable sales advisors for details.

**Order from The Mac Zone!**
Call us today and start taking advantage of the full potential of your Mac tomorrow. Our knowledgeable sales advisors and technical support staff are ready to answer your questions and help you choose the memory upgrade that's right for you.

## THE MAC ZONE'S PREFERRED MEMORY SUGGESTIONS FOR TODAY'S BEST-SELLING APPLICATIONS

The Mac Zone's experienced staff has put together this list of preferred memory recommedations to help you get solid performance from your applications. Remember that these suggestions are for each individual program only and do not include the additional memory you will need to run your system software, system extensions, or other applications you may wish to run at the same time.

| | |
|---|---|
| Adobe Illustrator 5.5 for Power Macintosh | 8MB |
| Adobe Photoshop 3.0 for Power Macintosh | 20MB |

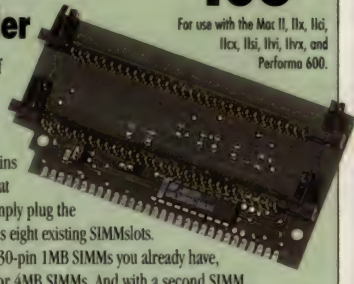
**$108.98**

## SIMM Expander



For use with the Mac II, IIx, IIci, IIcx, IIsi, IIvi, IIvx, and Performa 600.

If you're stuck with a Mac-full of 1MB SIMMs, here's the fast, affordable solution to making room for more memory. Each SIMM Expander packages contains four miniature circuit boards that each contain two SIMMslots. Simply plug the Expanders into four of your Mac's eight existing SIMMslots. Then you can quickly install the 30-pin 1MB SIMMs you already have, plus up to four additional 1MB or 4MB SIMMs. And with a second SIMM Expander package, you'll gain a total of eight SIMMslots and have the potential for up to 64MB of memory! ***#95690***

### CONSISTENCY, INTEGRATION AND EASE OF USE

- **Smart innovations give you a whole new way to work**
- **Automate your office with this essential business package**

With Microsoft Office you get a family of applications in one complete package, for one low price. Word processing is a snap with the latest version of the most popular word processor, Microsoft Word. Microsoft Excel revolutionizes your spreadsheets and Microsoft PowerPoint helps you deliver knockout presentations. You even get a single workstation client license for the easy-to-use mail program, Microsoft Mail.
Streamline your workload with these award-winning programs. Order today!

### Microsoft Word

Complete word processing power that simplifies complex tasks, automates time-consuming chores and offers a host of new features! Microsoft Word even allows you to convert more than 30 file formats, including WordPerfect.®

### Microsoft Excel

This comprehensive spreadsheet program utilizes efficient drag-and-drop movement for easy tasking. And the high-powered Scenario Manager creates point-reinforcing charts and performs in-depth data analysis.

### Microsoft PowerPoint

Design impressive multimedia campaigns and persuasive visual presentations with Microsoft PowerPoint. Develop and refine your thoughts in the outline view or right on your slides, then simply apply any combination of convincing graphics for maximum impact.

### Microsoft Mail Workstation License

Communication has never been this easy. When you outfit your networked station with Microsoft Mail, you can supplement your e-mail with informative files, charts and graphics for a more efficient, colorful exchange of information.

## Polaroid SprintScan 35 Slide Scanner

- 5 to 15 times faster than other slide scanners
- 2700 dpi resolution
- Captures all three color channels (RGB) in a single pass
- Includes a Photoshop plug-in utility

Polaroid's new SprintScan 35 Slide Scanner is a compact desktop peripheral for digitizing your 35mm color slides and negatives. Using Polaroid-designed electronics and sensor technology, it captures 24-bit color images at 10 bits per color with up to 2700 dpi optical resolution. And it captures the three color channels – Red, Green and Blue – in a single pass.

SprintScan is the fastest 35mm slide scanner in the world. Scanning at maximum resolution in under a minute, this easy-to-use scanner acquires images at a small fraction of the time of other desktop slide scanners, without sacrificing original image detail. In fact, it's up to 15 times faster than other slide scanners. The Polaroid SprintScan 35 is ideally suited to medium-to-high volume users in graphics arts – including desktop publishing, prepress service bureaus and image archiving. It's also an excellent tool for business professionals who create presentations. Order today! Polaroid ***#01192***

NEW!

*The ultimate sound enhancement system for multimedia and video games*

$69.98

## Vivid 3D

Based on award-winning SRS technology, the Vivid 3D system brings out audio cues hidden in the sound tracks of your applications. Until now, you had to buy an elaborate surround sound system and five speakers to get sound of this quality. Now, all you need are two powered speakers. The Vivid 3D easily connects to your computer equipped with a sound card. Or you can attach it to the base of your Nintendo system. NuReality ***#20853***

*Enhancement for any system*

$85.98

## Vivid 3D Plus

Vivid 3D Plus takes the same innovative technology found in Vivid 3D and adds the capability of attaching it to your stereo system, CD player, computer with sound card or cartridge-based game system. The Vivid 3D Plus features audio controls that allow you to adjust and customize your sound output. The product's space control changes the "width" of an audio image – and lets you hear greater localization and movement of sound. NuReality ***#20854***

*3D sound for computers without sound cards*

$119.98

## Vivid 3D Pro

So maybe you haven't added a 16-bit or 24-bit sound card to your Mac. Vivid 3D Pro needs only the audio port of your Mac's existing 8-bit sound board. And with the built-in amplifier, Vivid 3D Pro works with any set of speakers! The powerful amplifier gives you up to 35 watts of output for the highest quality sound available. Includes the same audio controls found on the Vivid 3D Plus. NuReality ***#20855***

*Fully integrated 3D environment including modeling, rendering and animation*

$898.98

## StudioPro 1.5

Strata StudioPro 1.5 is the most comprehensive 3D program available for the Macintosh. It incorporates advanced modeling capabilities such as 3D Boolean Add/Subtract/Difference, Twist, Bend, Extrude Along a Path and Metaballs. Add a new intuitive interface and expand the studio-quality Event-Based Animation System with extensions that include Shatter, Atomize and Explode. Then, speed up the lush photo-realistic rendering algorithms with native Power Mac acceleration and there isn't any other choice for the professional 3D artist. Strata ***#99509***

## FastTrack Schedule 3.0

**$169.98**

FastTrack Schedule lets you create and update presentation-quality Gantt chart schedules quickly and easily. Whether you need a quick scheduler or a full tracking system, FastTrack Schedule has it all! Draw bars to enter dates or enter dates to draw bars. Design custom bar styles and milestones. View the timeline scale in any unit from hours to fiscal years or use your own generic units. Outline and summarize projects with unlimited sub-levels. Link activities graphically to show dependencies. Track your projects' scheduled, revised and actual dates. Enter your work schedule in the customizable work calendar to define work days and hours. Use the On-Line Help system to get answers and tips quickly. Enhance your schedules with graphics, logos, floating text blocks and titles. Import/export data with other project management programs, spreadsheets, databases or any other application that can read/write ASCII text. Plus, FastTrack Schedule runs on both Windows and Mac, so everybody in your office can use it. AEC Software ***#03456***

# The Dead Sea Scrolls Revealed

- **70 minutes of newly produced videos**
- **Hundreds of photos, illustrations and film clips**
- **Multi-platform capability**

$36.98

One of the greatest archeological discoveries of modern times can now be explored fully on your Mac or Windows-compatible PC! In 1947, the Dead Sea Scrolls were discovered at a remote site in the Judean desert, touching off decades of research and controversy concerning the origins of Christianity. Who wrote them and why? What do they mean to mankind? Do they hold any secrets of Christianity and modern Judaism. Now, the magic of multimedia takes you on an interactive journey featuring specially commissioned videos, interviews with experts and even an incredible 3D walk-through of the centuries-old Khirbet Qumran Temple, home of the people who wrote the scrolls. A "floating navigation" palette provides immediate access to the Main Menu and Glossary. Logos Research ***#93409***

# A whole new development environment for the Macintosh

## CodeWarrior 5

PowerPC technology is here, and developers need a programming environment as powerful as the new processor. Introducing the premiere programming environment for the Power Mac, Metrowerks' CodeWarrior Gold. With CodeWarrior, you can write code in Pascal, C or C++, program on either 680x0- or PowerPC-based Macs, and compile for either processor family. And compilation is faster in CodeWarrior than in any other environment – on the lowest-end Power Mac, you should see a throughput of about 100,000 lines compiled per minute! Metrowerks' CodeWarrior has received near unanimous praise from developers, with many reporting build-time improvements of up to 1200%. Order today, and you'll know what all the applause is about. ## PrintShuttle

- **Faster than direct printing for most jobs!**
- **Continue to work while your printer prints**
- **Works with all major desktop publishing applications**

If you've ever waited for your printer to finish printing so you can get back to work, you need PrintShuttle. Unlike most print spoolers which "background" and utilize precious CPU power, PrintShuttle sends your print job to another machine on the network for the actual printing and interaction with the printer. This lets you have full use of your Mac within seconds – and without the sluggishness commonly associated with background spoolers. Plus, since you can move printer fonts from your Mac to the print server, Print-Shuttle saves you a significant amount of drive space. MicroMat ***#94261***

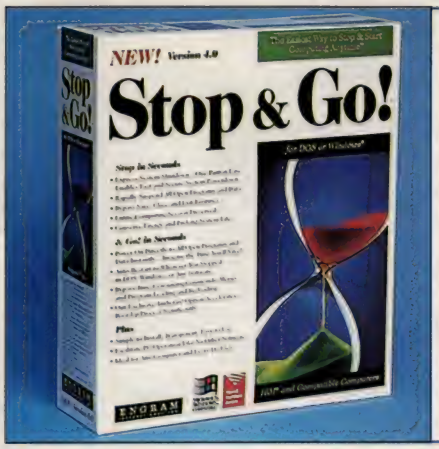
**The Right Utility Can Save You Time and Money!**



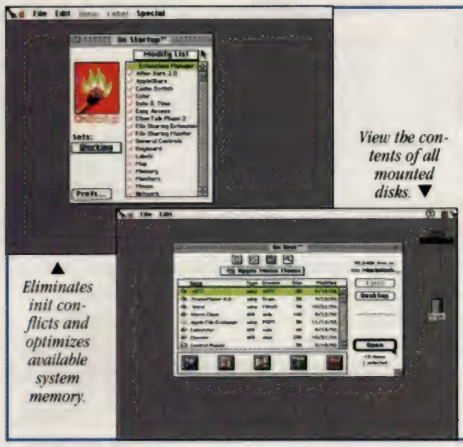
*Power-up or shut-down in less than five seconds*

## Stop&Go!

$69.98

- Powers down your Mac automatically
- Bypass: save, close, exit, shutdown, init, program loading/reloading
- Power on or auto restart to wherever you stopped on the desktop, including all your open software

Stop&Go! software simplifies Mac startup and shutdown by using memory imaging technology to transfer a "memory photograph" from RAM to the hard disk and back again. One easy step enables you to stop computing anytime, putting open applications securely to sleep! No need to save and exit programs, or shut down manually. When you're ready to roll again, simply power up, and you automatically leap back to where you left off – Stop&Go remembers your place, with all software applications and data ready to run. Eliminate the time-consuming repetition of reloading programs and data and locating your last data entry point. Use your time more effectively! Engram International ***#96928***



*View the contents of all mounted disks.* ▼

▲ *Eliminates init conflicts and optimizes available system memory.*

## StuffIt Deluxe 3.5/ Open Sesame!/Square One 2.0/ CDU/Kaboom! 3.0 Bundle

- All these applications make your Mac easier and more fun to use
- StuffIt Deluxe 3.5 is the complete, safe compression solution

**StuffIt Deluxe** from Aladdin Systems is an easy-to-use Mac utility for compression, encryption and archiving. It compresses files by up to two-thirds of their original size – the industry standard for automatically saving disk space, speeding up modem or network transfers, or backing up data. **Open Sesame!** from Charles River Analytics is the first software assistant that learns what you do and then does it automatically for you. It sits on your desktop observing your actions from the background. When it finds a repetitive pattern, it offers to automate it for you. Open Sesame! will open a nested folder, launch several applications at once, remind you of important events, and more. **Square One** from Binary Software is the power launcher that makes it easier to launch, run and switch between programs and files. You put the programs you use every day on a simple, elegant palette. Once you have it set up, you simply double-click on any item and your desired program or document is instantly launched. **Connectix Desktop Utilities (CDU)** is a collection of 16 powerful utilities for enhancing your productivity. They allow you to protect sensitive data, customize your Mac interface and much more. Hold on tight! Your Mac is about to come to life! With **Kaboom! 3.0**, you can add more than 150 wild and wacky sounds to your computer. Traffic jams, screams, explosions, sneezes, burps, even famous sounds and dialogue from some of your favorite television shows and celebrities. And with the all-new Kaboom! Control Panel, your Mac can automatically play the sound you choose when you start up, insert a disk and more. *The easiest way to back up and synchronize your files*

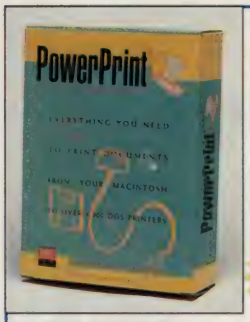
$42.98

## Personal Backup

Introducing the affordable, hassle-free way to back up your data! Simply set up your back up routine once from the control panel and Personal Backup™ automatically backs up your data without interfering with your work. Schedule your back ups to run at shutdown or at a specific time during the day. Personal Backup recognizes any HFS volume. Sun Star Publishing ***#92864***



*Easily print from your Macintosh to any DOS printer*

$94.98

## Power Print

- **Supports over 1000 printers**
- **Economical solution for mixed-platform network**
- **Prints in the background**

PowerPrint is a collection of Chooser-level drivers that enable your Mac to print to over 1000 laser, inkjet and dot matrix PC-compatible printers, and now supports 32-bit color and grayscale. PowerPrint easily installs your LaserWriter-like driver to give you built-in print spooling, reduction and enlargement, even/odd pages printing, page flipping and inversion, and even custom paper sizes. Perfect for PowerBook users to access diverse printers. Makes any portable printer Mac-workable. Easy to set up – simply run the installer, select printer in the Chooser, connect the included high speed cable and print. It's everything you need including a serial-to-parallel printer cable. *The fun and easy way to customize icons on your Mac*

## Icon Mania!

$27.98

- **Drag and drop to change file, folder and disk icons**
- **Effortlessly manage icons with included library**

Decorate your desktop with icons that are fun and practical! With Icon Mania!, you can replace boring icons with cool, colorful icons from a huge collection. Or use the editor to create your own icons or edit existing ones. You can make your icons more descriptive, so it's easier to judge a file by its icon. Even create preview thumbnail icons for your TIFF, EPS and PICT files! Icon Mania! turns fun into functional! Dubl-Click Software ***#92877***

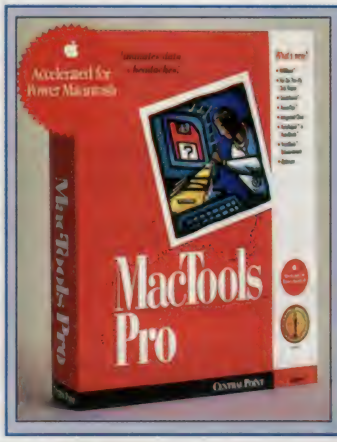
*Automatic software assistant*

$47.98

## Open Sesame! 1.1

- **Supports Power Macintosh**
- **Responds to your voice commands on Power Mac and AV models**

Open Sesame! is the first software assistant that learns what you do and then does it automatically for you. It sits on your desktop observing your actions from the background. When it finds a repetitive pattern, it offers to automate it for you. Open Sesame! supports Power Mac and is speech savvy. It now speaks its observations to you on Power Mac and AV models, and can respond to your voice commands. Open Sesame! will open a nested folder, launch several applications at once, remind you of important events, and allow you to have multiple sets of Apple Menu, desktop and startup items. Best of all, it minimizes the number of mouse/keyboard clicks required to accomplish most tasks. For instant automation, say hello to your new assistant! Charles River Analytics ***#98320***



*Powerful data protection and recovery*

## MacTools Pro 4.0

$98.98

- **DiskFix® helps you recover from the worst hard-disk problems**
- **TrashBack™ tracks deleted files and protects them from being overwritten**

The top-rated recovery tools just got easier! MacTools® is now more powerful than ever – with more support for the Power Macintosh. For tough disk problems, RAMboot™ automatically builds a startup disk in memory for rebooting. Most other problems are solved by Fix-On-The- Fly technology with no rebooting at all. And AutoRepair™ finds and fixes problems during idle time.

## SuperSpot

NEW!

$59.98

- Power Macintosh and SCSI Manager 4.3 compatible
- Super-fast caching to boost performance on all units
- Click one button to get the drive ready to use!
- Three different password protection options provide drive security

Private labeled from MacPEAK by major manufacturers for over six years, this feature-rich driver has the lion's share of the Macintosh market. Powerful and flexible, yet simple formatting and partitioning optimize all popular removable, Winchester and optical drives. Caching further dramatically boosts performance above ordinary drivers. Other advanced features include password protection, continuous error detection, repair, mirroring, automatic mounting of removable media, control panel adjustment of drive access, and the latest hardware support. CD support delivers two caching types to maximize audio, data and PhotoCD performance. MacPEAK ***#92878***

## *Quality surge suppressor for all users*

$15,000 Guarantee

### Personal Computer Grade 7-Outlet Surge Suppressor

$18.98

This seven-outlet surge suppressor is designed to provide the BEST available protection (330V clamping voltage) recognized by UL #1449 for your personal computer and peripherals. All three lines (hot/neutral, hot/ground, ground/neutral) are protected against power surges/spikes and EMI/RFI "noise," and an audible alarm warns when surge-protection capacity is exceeded. The unit is a floor model with a handy 6' power cord, and comes with both a lifetime warranty and a $10,000 Computer Guarantee from the manufacturer. Proxima Newpoint ***#93738***

***#93739*** **Personal Computer Grade 7-Outlet w/Modem Protection . . . . . $23.98**

### Business Computer Grade 7-Outlet Surge Suppressor

$29.98

$25,000 Guarantee

A greater disaster than a sudden power surge or spike that fries your business computers and trashes all your priceless records can scarcely be imagined! That's why your business needs the protection of this seven-outlet, floor-model surge suppressor that both guards against power surges/spikes and filters out EMI and RFI. An audible surge-failure alarm provides additional security, as does the manufacturer's lifetime warranty on the unit and a $25,000 Computer Guarantee. Meets specifications of UL #1449. ## LC, LC II and Color Classic users BREAK the 10MB BARRIER with the new ThunderPro Accelerators from MicroMac.

As Low As $99.98 EA.

Now the choice is yours – upgrade your PLUS, SE or CLASSIC with the 16MHz 68030 Performer accelerator and increase your Mac's speed up to 300% for only $99.98. Or choose the new PerformerPro 32MHz 68030 with 64K Cache and increase your Mac's speed by up to 600% for $199.98. For those using spreadsheets, graphics or music applications, get the accelerator you have selected with the optional FPU and speed mathematical calculations by 800%.

For LC, LCII, Performa 400/405/410/430 or Color Classic users, MicroMac hasn't forgotten you. For only $138.98, get the 32MHz 68030 Thunder accelerator with FPU and increase your Mac's speed by up to 170% and mathematical calculations by up to 400%. Or get the 32MHz 68030 ThunderCache accelerator with 32K Cache and increase your Mac's speed by up to 220% for $199.98. And now you can get the 32MHz Thunder or ThunderCache accelerators with 4 SIMM sockets on-board. Load the sockets with four 1MB, 2MB or 4MB SIMMs and break the 10MB barrier. Your Mac will recognize both your logic board memory and the accelerator on-board memory. The ThunderCache with on-board SIMM sockets is also available at 50MHz for a 350% speed increase. The ThunderCache accelerators are available with optional FPUs. MicroMac

- Increase your Mac's speed by up to 600%
- Upgrade your Mac Plus, SE or Classic
- The affordable way to extend the life of your older Macintosh model

### Speedy Accelerator

**FOR THE: IISI & IIFX, CENTRIS 610 & 650, QUADRA 610, 650, 660AV, 700, 800, 840AV, 900 & 950**

The Speedy Accelerator lets you increase the CPU speed of supported Macs by 25% to 50%. Simply turn the rotary switch on the Speedy Accelerator to increase the speed of your Mac.

*The next generation in two-page color displays*

## Radius IntelliColor Display/20e

$1998

- **20" Trinitron color display**
- **Adjustable resolutions**

The Radius IntelliColor Display/20e provides more value for your money than any other 20" Trinitron color display. It offers a wide range of resolutions (from 640x480 to 1360x1024 @ 75Hz, 1600x1200 @ 60Hz), and yet costs about the same as single resolution Trinitron displays. And it provides sharper images with more vibrant colors and a higher brightness and contrast level so you can work more comfortably for long periods of time. Its worry-free warranty service features on-site, overnight replacement, practically eliminating potential down time. Radius ***#95548***

*Flawless performance at a budget-conscious price*

## PrecisionColor Display/17

$999.98

For comfortable viewing during extended periods, this 17" Trinitron color display can't be beat. It's an excellent choice for color graphics and multimedia applications. The PCD/17 features ultra-fine 0.26mm dot pitch, a flat-barrel tube and anti-reflective silica glass coating – providing you with the best focus, clarity, brightness and color accuracy available. It also delivers superior ease of use with "on-the-fly" resolution switching, which allows you to change display resolution and bit-depth without having to reboot your Mac or re-launch applications. Radius ***#97873***

*Call for the full line of SuperMac monitors!*

## SuperMatch 17•T Trinitron Color Display

$979.98

The 17•T's crisp color registration will be appreciated by business users and graphic artists alike. This 17" display offers 1024x768 full-page, 832x624 WYSIWYG and 640x480 magnified view resolutions, and has SuperSquare anti-distortion technology and accurate 6500 degrees K white point. ## Genova TC1017 17" Color Monitor

$669.98

- **17" ultra-high resolution screen (832x624)**
- **Vertical refresh rate of 75Hz for flicker-free images**

This large-display monitor has all the features you'd expect in a fine video solution except one – a high price. You get a spacious 17" screen that displays any image up to 11.8x8.8" without reducing or scrolling (15" diagonal viewable area). Thanks to a Hitachi tube featuring a .28mm dot pitch, dynamic beam alignment system with anti-glare coating and 832x624 resolution, the image is remarkably sharp and alive with color. Other features include a control panel with dials for brightness, contrast and vertical & horizontal settings. Manufactured by Genova, a company founded to provide the highest quality monitors and graphics peripherals in the industry. Sits easily on your desktop. Genova ***#91550***

*New EAsy-color 24 is the intelligent choice in high performance graphics accelerators*

**$1298**

## EAsycolor 24/1152 Accelerated Video Card

- **Advanced LSI RISC processor**
- **Resolutions as high as 1600x1200 pixels**
- **24-bit color support with on-board QuickDraw, Photoshop Filter, and CMYK-RGB acceleration**
- **Features 4MB of VRAM for high speed image access at higher resolutions**

If you use Photoshop or similar image editing software and work on a 17" or larger monitor, you need the new EAsycolor 24 high performance graphics accelerator from EA Research. In addition to providing unsurpassed performance increases (even on a PowerMac 8100), the EAsycolor 24 cards offer up to 8MB of VRAM (4MB on the 24/1152), and on-board acceleration for Photoshop, CMYK-RGB and QuickDraw. EAsycolor 24's secret is its state-of-the-art RISC design. The 7" EAsycolor 24 card comes in three different models, offering 1152, 1380 or 1600 maximum resolution, all of which come with a lifetime warranty and 30-day money-back guarantee. Compare and see for yourself why the EAsycolor 24 is the new, intelligent choice in high performance graphics acceleration. EA Research, Inc. ***#92427***

# PowerBook Battery Options from Battery Technology

## SlimPack 6x $229.98

Get up to 15 hours of continuous runtime on your Macintosh PowerBook 100 to 180C – more than six times the power your internal battery provides! This lightweight, external battery recharges in approximately six hours using the original Apple AC adapter. Six-month warranty. Battery Technology *#92678*

*#93646* SlimPack Battery for Duo . . . . . $248.98
*#95229* SlimPack for PowerBook . . . . . $148.98
*#92658* SlimPack for PowerBook 500 . . . . . $263.98
*#92659* SlimPack Lite for PowerBook . . . . . $88.98

**Buy any BTI battery and get PowerMerge Limited Edition FREE!** Just ask for *#98473*

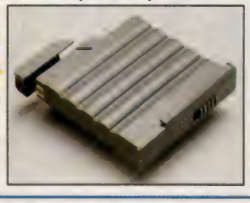
## Mini AC Adapters

These Universal Auto Switching power supplies are perfect as replacements or secondary adapters for Duo models 240 to 280c, or Power-Book models 100 to 180c. They feature a small footprint (2.3x4x1.5"). Battery Technology

*#99312* Mini AC Adapter for PowerBook . . . . . $68.98
*#95215* Mini AC Adapter for Duo . . . . . $48.98

## BTI Internal Starter Kit for Duo $117.98

Lasts up to 66% longer than standard Apple power sources! And since losing your battery door can mean losing use of your PowerBook, the MC-170 has one built in. Comes bundled with the MC-CHR Power-Charger featuring "Memory Effect Conditioning" – for a starter kit that brings out the very best in your PowerBook! Battery Technology *#06864*



## PowerBook 140/170 Battery $58.98 *#06022*

*#06641* Power Charger . . . . . $83.98
*#91873* Duo Int. Battery . . . . . $118.98

## Power Gage Battery Bundle $168.98

Charge your PowerBook batteries in about 1.5 hours instead of the typical five! And enjoy the highest capacity replacement battery available. Battery Technology *#99309*

*#99310* PowerCharger Plus . . . . $98.98
*#99311* PowerGage Battery . . . . $73.98

- **Cross-platform (includes Mac and PC interfaces)**
- **Able to access all MPC and MPC2 CD-ROM titles**
- **Runs off AC power or rechargeable batteries**

MEDIA VISION

Until now, you've had to buy a separate CD-ROM player for every computer you own. One for the office. One for the home. And in between or on the road? Forget it. Now Media Vision has changed all that. Introducing Reno, the most versatile CD-ROM drive ever. This powerful, portable unit can keep up with you whether you're running the most demanding application from your desktop PC, or on the road miles from the nearest AC outlet. Reno delivers double-speed transfer rates, PhotoCD Multisession compatibility, ultra-fast access times, audio CD playing capability and a standard SCSI 2 interface – all in a sleek, stylish package. Reno includes headphones and a battery pack, and is backed by a one-year warranty. And all Media Vision products offer unlimited toll-free technical support, available seven days a week. ## *The fastest way to get paper into your Mac*

## PaperPort

**$379.98**

- **Transform your Mac into a fax machine**
- **Make copies from your desk to any printer**
- **Store and organize your articles, letters, receipts, cards and notes**

95% of the world's information still exists on paper. Yet historically there's been no easy way to deal with paper-based information electronically. Until now. Visioneer presents an amazing personal document organization solution. When you insert paper into PaperPort, the scanned image of your document immediately appears on-screen and the PaperPort application is automatically launched. PaperPort allows you to organize, fax and transform any document with OCR. Store and organize your articles, letters, receipts, financial statements, cards and notes. Fax off an invoice or letter. Even turn your Mac into a full function copying machine with PaperPort and your printer. Finally, there's a fast and easy way to manage those documents that are too important to leave on paper. And installation is a snap! Plug it into your printer or modem port and you're set. Weighs only 2.5 lbs.

## More features for less for your desktop Mac

# SupraFaxModem V.34 288 External

Now Shipping V.34

$228.98

Experience a revolutionary breakthrough in modem technology with the SupraFAXModem 288. This desktop model offers you the ultimate in high speed performance. It delivers more speed, dependability and features – without costing you more money. You'll transfer files faster than ever with its 28,800 bps data speeds. Access remote networks with unsurpassed efficiency. And save money with reduced on-line time, phone charges and delivery costs. Plus, you'll love the ease and flexibility of sending and receiving faxes by modem! Supra *#96582*

***#96583*** **Supra FAXModem 288 Mac Int for PB ..... $308.98**

## WHY SUPRA?

Supra Corporation

A faxmodem from Supra simply offers more. Whether you're interested in sophisticated features or the most economical solution, you'll always find it with Supra. And you'll never have to worry about dependability. All Supra products offer high-quality engineering and manufacturing, a "Made in the USA" label, a rock-solid warranty and a complete package with top-rated software – all at a much better price than you would expect.

## You get full-featured functionality with both the Supra FAXModem 288 and 288PB!

- 28,800 bps data – twice the speed of current V.32bis standard modems
- 14,400 bps fax capability
- State-of-the art V.42bis 4:1 data compression for up to 115,200 bps throughput
- Flash memory allows for convenient firmware upgrades

# FAXnetwork Server Software

$89.98

- Accommodates many network sizes
- Ultra-fast spooling and fax transmissions
- Features automatic redial
- Includes auto printing and custom cover page options

Stretch your hardware dollar and enhance your workgroup's productivity with FAXnetwork™ Software! Designed for Ethernet and LocalTalk Macintosh networks, this powerful software allows any workstation to transmit faxes using a single, centralized modem. And since FAXnetwork Software works completely in the background, no dedicated server is required! Remarkably easy to use, FAXnetwork lets you fax from any application as easily as you print. And incoming faxes can be routed automatically to your network printer or sent to individual workstations. PowerBook users will love the option of using FAXcilitate while on the road, or using FAXnetwork when connected to the office network, without any software conflicts. PSI *#93719*

## EtherWave

Buy any EtherWave combination and get PortShare from Stalker Software for $59.98 Save $65 off regular price.

- **The easiest way to connect PCs, Macs, PowerBooks, laptops and printers to a 10Base-T Ethernet network**
- **Create a network without a hub**

EtherWave™ is the innovative solution for getting started with Ethernet or expanding an existing 10Base-T network. The EtherWave product family provides an easy way to quickly add or move a PC, Macintosh, networked printer or workstation within existing Ethernet networks. You can also use EtherWave devices to create an independent network of up to eight nodes without requiring a hub. EtherWave devices each feature two self-terminated RJ-45 ports which connect using unshielded twisted-pair wire so they're 100% 10Base-T compatible. The EtherWave transceivers are available with AAUI or AUI connections and work with any device with Ethernet already on board. The cards are available for NuBus and LC Macs and ISA for PCs. Farallon

*Exceed FDDI speed on your existing Ethernet network*

NEW!

## RunShare 2-User

$289.98

- **Significantly improves work flow performance**
- **Roughly doubles the Finder's copy speed**

Move files across your network with blazing speed with RunShare. This 7" NuBus board allows your Mac to transfer files at up to 1MB per second over Ethernet, with sustained rates of up to 55MB per minute possible. That's approximately 800% faster than your EtherTalk network, and even far exceeds speeds attained on FDDITalk! RunShare also lets you open and save Photoshop, FreeHand and Illustrator files over the network up to 200% faster! And since RunShare's advanced technology utilizes your network bandwidth, and RunShare uses no data compression or error correction removal, you can rest assured that your data will be safe. NEW!

## Alps GlidePoint Mouse

$75.98

- **Cursor control at the touch of a finger**
- **Replaces your mouse or trackball**
- **Very reliable – almost no moving parts**
- **Works and feels natural for both right and left handers**

The Alps GlidePoint revolutionizes the way you control your Mac. Instead of rolling around a mouse or trackball, GlidePoint is a pointing device that lets your finger do the pointing. Just place your finger on the surface of GlidePoint and move your finger up or down. The cursor follows your finger – it's as simple as that! Once you've moved the cursor where you want it, simply tap GlidePoint's surface to activate anything. Or if you prefer, use any of GlidePoint's three buttons just as you would use mouse buttons. The third button is even programmable, so you can use it to activate macros and more. Backed by a lifetime warranty. Alps Electric ***#92698***

## BAT Personal Keyboard

$176.98

- Seven keys replace your entire keyboard
- Easy to learn and use

The BAT™ Personal Keyboard is an innovative, ergonomic input device that increases your typing efficiency. A one-handed keyboard with only seven keys, it's capable of entering all characters and functions of a traditional keyboard and may help to reduce strain and fatigue in your hands. Using a unique, easy-to-learn technique called chording, you press multiple keys simultaneously to achieve words with less effort than using traditional touch typing. And the included ChordEasy Software allows for programmable macros and WordChords to increase productivity. Infogrip *#93467 – Right Hand*

## TrackBoard

TrackBoard gives you a keyboard and a trackball in a one convenient package. This innovative product puts an end to the constant fumbling between your keyboard and your mouse. TrackBoard increases your desk space because its 30% smaller than other extended keyboards – not counting the room your mouse uses. The keyboard section of the TrackBoard features a space-saving 79-key layout that provides full Apple Extended keyboard functionality with TrackBoard's exclusive dual-purpose keys where the cursors double as Home, End, Page Up and Page Down. The trackball section incorporates a full-size three-button design with special rounded key tops. And it uses a wide space bar design for easy operation. Datadesk *#92650*

**Here's what the critics say about Datadesk Keyboards:**

**$998.98** *#06903*

### ScanMaker 35T

This toaster-sized scanner offers the performance of more expensive 35mm slide and filmstrip scanners, but at a very affordable price. It captures sharp, crisp images with up to 16.7 million colors or 256 grayscale. Its optical resolutions of 1828x1828 dpi rivals higher-priced scanners. Plus, you'll enjoy the capabilities of Adobe Photoshop LE, included FREE.

With the **ScanMaker IIHR** you will receive Adobe Photoshop LE • OmniPage Direct

*Professional, high-resolution scanning*

**$829.98** *#04110*

### ScanMaker IIHR

Perfect for graphic arts professionals who require high-end quality and features. With its three-pass scanning method, it produces true, life-like colors and sharp images at 600x1200 dpi – and up to 2400x2400 dpi through software interpolation. OmniPage Direct is easy-to-use, highly accurate optical character recognition software. Use it with any Mac program that works with text or numbers.

With the **ScanMaker III** you will receive Adobe Photoshop 3.0 FV

**SAVE $380.00** when you purchase a TRANSPARENCY ADAPTER NOW ONLY **$148.98** with this special offer!

Publish impact AWARDS '94

*36-bit, high-resolution color scanning in a single pass!*

**$2598.00**

### ScanMaker III

- **Features Dynamic Color Rendition**
- **600x1200 dpi resolution**

This is Microtek's most sophisticated color flatbed scanner ever. It's packed with a wealth of features to produce high-quality color scans with lifelike, vibrant colors, superior detail and extra-sharp clarity. It features the industry-acclaimed DCR™ color calibration/correction system for incredibly accurate color quality. And it scans in 36-bit color, capturing and outputting images at up to 12 bits per RGB color channel. This gives you more precise color gradations, detailed highlights and rich shadows, accurate midtones and a full photographic dynamic range. Also includes Microtek's intuitive custom scanning software for capturing perfect scans on the first try. Plus, ScanMaker's Plug-In for Adobe Photoshop provides features like full-color prescan for easy adjustment of the scanning frame. *#01122*

# Introducing the PROMODEM 288e V.34 FAX/MODEM

Its super-fast 28,800 bps data transfers will SAVE YOU MONEY... and it works with the telephone equipment you already own!

**$229.98**
*Order #91766*

The Prometheus ProModem 288e offers the money-saving speed you deserve. And because it's designed to work with your existing telephone equipment, there's no need to install another telephone line when you need to add fax and data communications capability to your home or office computer. Send and receive faxes using the included MaxFax software – designed to make faxing a document as easy as printing it. Access the information superhighway and take advantage of the rich world of on-line services. Download files to your computer's hard drive at exceptional speeds. This external V.34 modem transfers data at an incredible 28,800 bits per second (bps) – a real time (and money!) saver when modeming large files. And it sends and receives faxes at a fast 14,400 bps. The ProModem 288e also features V.42 error correction to protect the integrity of your data transmissions. And its V.42bis/MNP-5 data compression ensures reliable high-speed transmission every time.

**Invest in a fax/modem that will save you money. Order the ProModem 288e today!**

The all-in-one solution for managing your fax, voice and data communications

## Prometheus PROMODEM 144e

- **Digital Answering Machine**
- **14,400 bps data modem and send/receive fax**

This external modem does more than just transfer files or connect to on-line services. Thanks to powerful MaxFax 3.5 software, it also works like a personal office assistant to answer your phone and record voice messages, or send and receive faxes right on your Mac. The ProModem 144e features V.42bis data compression to transmit your data at up to 57,600 bps. Its V.42 error correction preserves the integrity of your data. Order today!

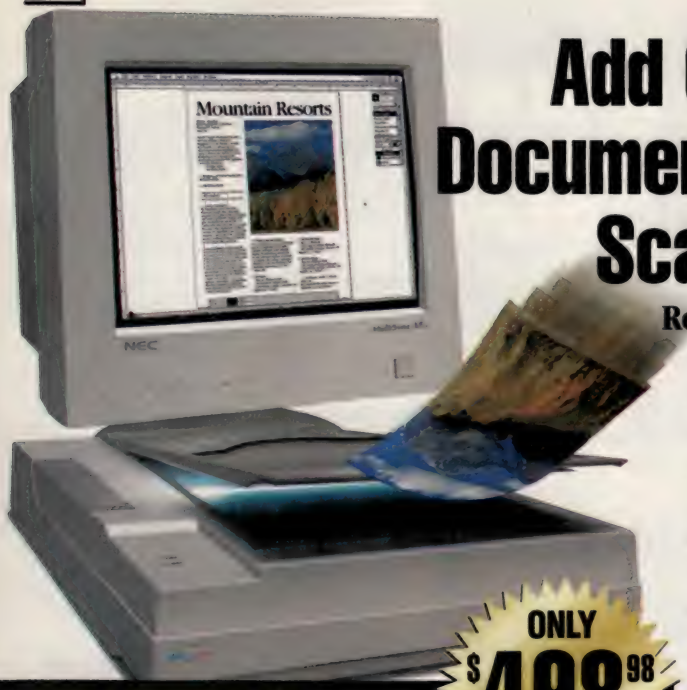
# Add Color Images to Your Documents with a RELISYS Scanner for Any Budget



**Relisys scanners deliver fast, reliable performance. They lead the industry with innovations like:**

- ***Double Hardware Resolution*** provides more non-interpolated data per square inch. This keeps scans sharp, even after substantial enlargement.
- ***ColdScan Technology*** requires no warm-up time or heat ventilation. This means crisper scans and longer bulb life – up to 35,000 hours!
- ***One Pass Scanning*** simplifies the scanner, increasing its reliability, consistency and speed, & eliminates potential color balance & registration problems.
- ***Native Mode for Power Mac*** accelerates the processing speed and ensures compatibility with Photoshop 3.0. (With Art-Scan Professional version only.)
- ***High Software Interpolation*** increases resolution by inserting more dots.

# Cutting Edge Technology from RASTEROPS®

## PaintBoard Prism Family

NEW!

### High-performance 24-bit Color Graphics Accelerators for Macintosh® and Power Macintosh™

The PaintBoard Prism family is RasterOps' fastest and most advanced graphics accelerators ever. And they're very affordable! Prism and Prism GT offer 16.7 million accelerated colors at resolutions up to 1152x870 on up to 21" displays – perfect for viewing a full, two-page layout in full size. They feature high refresh rates for flicker-free images. And with their hardware-based pan and zoom, you can instantly magnify an image two, four, even eight times – without losing any detail – then smoothly move about the image. For the real world performance you deserve, order the Prism or Prism GT today!

### 3 Reasons Why You Should Upgrade:

1. **More speed!** QuickDraw™ acceleration delivers faster performance in all your applications.
2. **More resolution!** So you can use up to a 21" display – and see your complete layout.
3. **More colors!** The photorealistic colors you want – 16.7 million of 'em!

ONLY $699.98

**PaintBoard Prism**

Ideal for personal productivity, presentations, word processing and desktop publishing – especially for owners of larger displays. ***#91936***

Compatibility: The PaintBoard Prism and Prism GT are 7" long and compatible with all NuBus-based Mac II family and Quadra computers except the Macintosh II, IIx and IIcx.

ONLY $1049

**PaintBoard Prism GT**

Delivers the added QuickDraw performance you need for color publishing, graphic design and the most demanding Mac applications. And it's perfect for owners of the Power Mac 6100 or 7100 who want to upgrade to Power Mac 8100 performance. ***#91937***

TARGA 2000
Capture & Playback Full-screen Video!
ONLY $4799

NEW!

## Truevision® TARGA 2000

### for Macintosh and Power Macintosh

**The professional digital video system with advanced DVR Memory Architecture and stereo audio capture for superior quality and performance.**

The award-winning Truevision® TARGA® 2000 is already the undisputed performance leader for digital video on the PC platform. And now this technology is available for the Mac.

TARGA 2000 is a QuickTime®-compatible solution that lets you digitally capture **full-screen**, full-motion video and stereo sound, compress and store it on your hard disk, then edit and play it back on your Mac with unsurpassed quality. Incorporating Truevision's DVR™ Architecture, TARGA 2000 frees your Mac from intensive video and audio processing. It uses its own 20MB of on-board memory – expandable to 64MB with standard SIMMs – to ensure maximum quality, while eliminating the problems of video and audio drift that plague other products.

TARGA 2000 is also the only professional video solution that lets you output video directly to tape or video monitor while also displaying the video on your Mac – perfect for editing and previewing your production at the same time! For the broadcast-quality video your work demands, order TARGA 2000 today! ***#91938***

**From inexpensive productions to full-length broadcast features, TARGA 2000 is the solution demanding video professionals have been waiting for!**

- True 60 fields/second NTSC and 50 fields/second PAL video capture
- Full compatibility with NTSC (640x486) and PAL (720x576) video standards
- 16-bit, CD/DAT quality stereo audio – automatically captured and synchronized to video
- Hardware JPEG compression and decompression with true 24-bit dynamic quantization for optimal image quality and color support
- S-VHS quality output for printing professional, full-screen video to tape

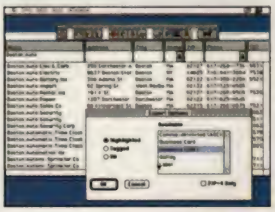
# Phonebooks on CD-ROM

## Instantly access the names, numbers and addresses of 72 million people and 11 million business listings across the U.S.

NEW 1995 EDITIONS
$149.98
Order item A#96018

Remember how your fingers used to do the walking? Meet the new directory standard. It's Select Phone, the award winning Phonebook on CD-ROM. In one sense it's nothing new. You still use your fingers. Except now you're looking up *millions of people* and *millions of businesses* right from your desktop. You can now have direct access to thousands of white page directories, all on five CD-ROMs. And what access! Select Phone sports a turbo-charged search and sort utility that will blow your mind. Simply key in a name, an address, a zip code, business heading – even an SIC code. *Click.* Up it pops! Select Phone even lets you zero in on the neighbors of your best customers or the occupants of the same office building. Round up your best prospects – pull up their names, addresses, phone numbers, zip + 4 – the works. Then download this cherry picked group of listings from Select Phone's database of over 82 million names. It's easy because Select Phone is the *only phonebook* on CD-ROM that lets you download **all residential and business listings** into popular databases, word processors or contact managers like Filemaker Pro,Word, WordPerfect, Excel, Now!, In Control, Touchbase and Claris Organizer to name a few. So you can locate people. Do a mailing. Telemarket. Create business. *Close sales.* Imagine. Your *own customized list.* Ready to go! The essential names, phone numbers and addresses you need to be successful. Select Phone is the phonebook on steroids. The magic link that connects you to everyone you need to contact. They're all in this box. A keystroke away. Get them fast! Call in your order for Select Phone now – including the valuable coupon for the next edition FREE! It's like getting two for the price of one!

*While other phonebooks restrict both residential and business downloading or charge you per name, these offer you unlimited and unrestricted downloading of all listings at no cost!*



*Export one - or one million - listings into your current word processor, database, spreadsheet or contact management software for mailings, telemarketing and new business prospecting*

## Who you gonna call?

- Select Phone comes on 5 CD-ROM discs and contains over 72 million residential and 11 million business listings updated quarterly
- It lets you search for listings using any field: name, address, city, state, zip, area code, business heading and SIC code
- Offers reverse search capability – match names and addresses with phone numbers or vice versa
- You'll save a bundle on directory assistance
- Get exact counts of specific listing types
- It's the only phonebook that lets you download all residential and business listings at no cost
- You can export to Filemaker Pro, Word, Wordperfect, Now! and dozens of other popular programs. It even exports to Avery labels!
- It's a great tool for locating people and companies, direct marketing, telemarketing, lead generation, prospecting, market testing, surveys, fundraising, and a million other uses that you'll think up!
- Includes coupon for the next edition FREE!

*Double keyed for accuracy - compare Select Phone's coverage and accuracy with others and see the difference in quality!*

**Direct Phone**
*Just finding people and businesses by name? This is the one for you!*

# Get virtually unlimited storage with Performantz SyQuest Drives!

**270MB Drive** reads & writes to 270MB & 105MB cartridges

**200MB Drive** reads & writes 200MB, 88MB & 44MB cartridges

**88MB Drive** reads & writes to 88MB & 44MB cartridges

**Starting At Only $298.98**

The Performantz line of SyQuest removable cartridge drives offers you the versatility of virtually unlimited storage – and they're fast enough to be used as a second hard drive. Everything you need is included, so you'll be up and running in minutes. Removable SyQuest cartridges make it easy to transport large files, backup data, or remove data for security purposes. And when you run out of storage space, simply insert an empty cartridge into the drive. It's that easy!

Performantz SyQuest drives are compatible with all SCSI interfaces. Each drive includes a SCSI system cable, external terminator, disk utilities software and a manual to have you up and running in minutes. SyQuest technology has set the standard for removable storage drives. And now The Mac Zone makes this technology affordable. Backed by a two-year warranty and 30-day money back guarantee.

**Performantz**
**Removable Drives made with SyQuest® TECHNOLOGY**

*The industry standard for removable storage you can depend on!*

### Performantz 44/88MB SyQuest Drive

This drive lets you read and write to both 44MB and 88MB cartridges.* It's ideal for people who already have a library of 44MB cartridges but want the expanded capability of 88MB cartridges.

**The Performantz 44/88 will not format a 44MB cartridge.*

**#06539 Performantz 44-88MB SyQuest Drive with 88MB cartridge . . . . . $348.98**

*The biggest reason yet to use 5.25" SyQuest removables!*

### Performantz 200MB SyQuest Drive

The perfect choice for data-intensive applications like DTP and multimedia. It offers a huge 200MB of storage on a 5.25" cartridge, plus read/write compatibility with all SyQuest 44MB & 88MB cartridges.*

**Does not format 44MB or 88MB cartridges.*

***#01144* Performantz 200MB SyQuest Drive with 200MB cartridge . . . . . $579.98**

*The super speed and storage high-end Mac users have been waiting for!*

# New Super Low Prices on High-Quality Performantz Hard Drives

**Starting At $298.98**

Whether you own a Mac Plus or a new Power Macintosh, Performantz external and internal hard drives deliver the features and performance you demand for safe, reliable storage. The external models feature attractive and durable cabinets that fit perfectly under Classic-style Macs. They also fit nicely alongside or under the monitor of a Mac II-style computer. And as your storage needs grow, you can purchase additional Performantz hard drives and daisychain them together – an easy, affordable way to expand your storage capacity without losing your current investment.

### Top quality components – ready to go, right out of the box

Performantz hard drives set the new standard for performance and value. Utilizing top-quality mechanisms from the leaders in hard drive technology, they give you all the benefits of speed and reliability at low Mac Zone prices. And Performantz hard drives are preformatted for easy installation and operation. You'll be up and running in minutes, because each drive comes with everything you need, including SCSI system cable, external SCSI terminator, and a heavy-duty auto-switching power supply that supports foreign voltage.

### Backed by a 30-day money-back guarantee and a one-year warranty!

Each Performantz hard drive must pass a stringent set of quality control checks and tests. This ensures optimum performance and reliability. Try your Performantz drive for 30 days. If you're not completely satisfied within that time, call The Mac Zone for a Return Merchandise Authorization number, and return it for a full refund*. All Performantz hard drives also include a one-year manufacturer's warranty. *Excluding shipping costs.

## Data Tower Vertical Drives

**Starting At $359.98**

Space-saving Data Tower Drives feature a small footprint – but deliver BIG in performance and reliability. Each drive features a full metal case, high-quality drive mechanism, fast access speed, and SCSI-2 compatibility. Plus, Data Tower Drives are SCSI Manager 4.3 compatible. For Power Macintosh owners, using non-SCSI Manager 4.3 compatible drivers will result in significant performance and compatibility problems. Most Mac users will enjoy 30-50% better performance by using SCSI Manager 4.3-savvy drivers on this new platform. Backed by a 30-day money-back guarantee and a two-year manufacturer's warranty.

$1889
#92403

The RCD-1000™ is virtually three drives is one. As a CD Recorder, it lets you create your own video, audio or data CDs in minutes. Each CD (sold separately) holds 650MB of data or 74 minutes of audio. As a double-speed CD-ROM Player, it can read today's educational, multimedia and audio CDs. And with Pinnacle's own Backup Software Utility, the RCD-1000 can replace your tape drive and offer you a more reliable backup solution with fast access to your data. Best of all, this 3-in-1 system saves you money! For more Pinnacle Micro products, **see page 83.**

## Video Capture & Editing

*Shoot color motion video and sound from your desktop!*

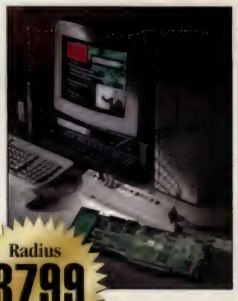
### FlexCam

VideoLabs
$498.98
#02180

The ultimate solution for color desktop video production, videoconferencing, document scanning, video annotation and more. It features a 1/3" high resolution color CCD camera and two directional stereo microphones. The razor sharp lens focuses instantly from 1/4" to infinity with crystal clarity. FlexCam boasts auto-white balance, electronic exposure and sensitive light-gathering, delivering vivid color under virtually any condition. Works with all popular Mac and MS Video for Windows video digitizing boards.

*A superior price/performance value for capturing digital video on the Mac*

### VideoVision Studio 2.0

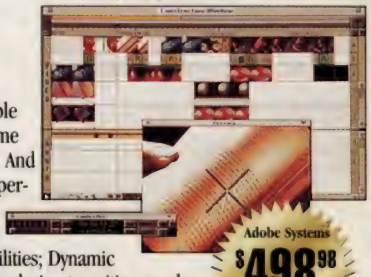


Combines stunning video quality, outstanding performance and extensive video editing features at a surprisingly low price. This 24-bit, 60-field/30 fps, 640x480 system offers a variety of new features: improved video and audio synch for clearer, cleaner, professional videos and presentations with controlled drift; easier, more accurate editing and professional RS-422 deck control; and much more. Includes Adobe Premiere 4.0 and VideoFusion 1.6 software.

Radius
$3799
#93683

*The industry's leading video editing application*

### Adobe Premiere 4.0



Adobe Premiere 4.0 is an indispensible tool for creating and editing QuickTime movies for multimedia presentations. And it takes full advantage of Power Mac performance! New features include the easy-to-use Trimming window, which expands and simplifies editing capabilities; Dynamic Previewing for seeing edits without rendering transitions and effects; enhanced filters and custom transitions, plus floating windows and palettes. For more details, **see page 48**

# Upgrade Your Macintosh To PowerPC and Save!

**With Apple-licensed technology for the highest degree of Power Mac compatibility!**

Upgrade your Quadra, Performa and LC 470, 570, 605 and 630 series

Mac Zone Price $679.98
Special Savings – $50.00
ONLY Final Price $629.98

## PowerCard 601 66MHz PowerPC Upgrade

The PowerCard™ 601 brings Power Mac performance to entry-level Macs. This inexpensive PowerPC upgrade provides Power Mac performance for one third the cost of a new machine. It's easy to install and works with your existing memory. The PowerCard 601 includes a 256K cache, plus System 7.5 and ClarisWorks – both accelerated for the Power Mac. And for maximum flexibility, you can reboot your Mac as a 68040 so you won't lose the investment you've made in your current software. DayStar Digital ***#92168***

SAVE $50 For A Limited Time on the PowerCard 601

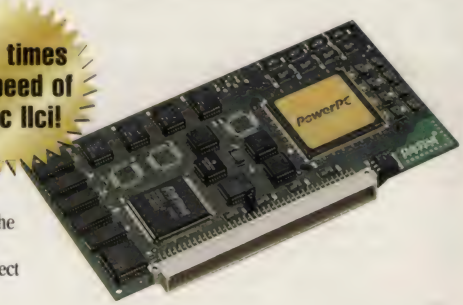
Apple System 7.5 included FREE!

Upgrade your Mac IIci

ONLY $999.98

## Turbo 601 66MHz PowerPC Upgrade

Get 8 times the speed of a Mac IIci!



Upgrade your Mac IIci to blazing 66MHz PowerPC speed with DayStar's new Turbo 601. This breakthrough product is the ONLY way to add a PowerPC processor to this machine. With 256K of cache built in, you get plug-and-play performance and compatibility. The DayStar Turbo 601 gives you the added savings of using the 30 pin memory you already own. No changes to your machine are necessary to go PowerPC FAST! Plugs easily into your Processor Direct Slot. Requires System 7.5. DayStar Digital ***#92169***

Upgrade your Quadra 610*, 650, 700, 800, 900, & 950, the Centris 610* & 650

STARTING AT $1499.00

## PowerPro 601 80 and 100MHz PowerPC Upgrades

DayStar's PowerPro 601 upgrades deliver the absolute maximum performance – 80MHz with RAM expansion, or blazing 100MHz speed! The 100MHz model is faster than Apple's Power Macintosh 8100 – for considerably less than the price of buying a new system! The 80MHz PowerPro with RAM expansion allows you to add up to 128MB of additional memory. Both models come with 1MB cache for full speed operation with motherboard memory. PowerPro is faster than most of Apple's logic board upgrades, and its unique design and features easily outperform Apple's Power Macintosh upgrade card.

*PowerPro with RAM expansion not supported on Centris/Quadra 610. Requires 610 adapter. DayStar Digital ***#95350***

**Upgrade to PowerPC Performance at Low, Mac Zone Prices!**

High resolution graphics plus the absolute fastest Photoshop acceleration available!

# Thunder IV Graphics Cards

## Perfect for Power Mac or Macintosh owners who need the maximum Photoshop productivity!

- 1600x1200x8-bit Super Resolution – 92% more information than the highest resolutions provided by built-in video!
- The fastest 24-bit color available – four times faster than Power Mac built-in video!
- Built-in PhotoEngine with four DSPs for Adobe-charged Photoshop acceleration!
- Bundled with Dynamic Desktop and ColorComposer software

Radius and SuperMac have combined their expertise to offer Photoshop users the ultimate graphics and acceleration cards – the Thunder IV Series. Each card will more than pay for itself by saving you time and increasing productivity! You'll see the return on your investment especially fast if you frequently use time-consuming operations like Gaussian Blur, Unsharp Mask, Arbitrary Rotation, Image Size and RGB to CMYK conversions. Thunder IV Series Cards include: Dynamic Desktop® software for on-the-fly resolution and bit depth changes, and hardware pan and zoom; plus ColorComposer software, which more closely matches the colors displayed on your monitor to the printed colors.

*#92642* **Thunder 24 GT** ..... $1399
Up to 1152x870 24-bit resolution

## Order today for the ultimate Photoshop performance!

Propel your Photoshop images into hyperspace!

### PhotoEngine

- The fastest accelerator built specifically for Photoshop
- Features 128KB of static RAM and a fast NuBus 90 Interface
- 7" NuBus design makes it compatible with nearly all Macs

Thanks to four digital signal processors (DSPs), PhotoEngine supercharges the most time-consuming Photoshop functions, including filtering, image resizing, rotation and on-screen CMYK color conversion. And as an Adobe licensee, the results you see with PhotoEngine are visually identical to unaccelerated images. Plus, PhotoEngine uses existing Photoshop menus, so there's nothing new to learn! Radius *#93650*

$849.98

***System Requirements for the Thunder IV Series and PhotoEngine:***
- *Macintosh with one available NuBus slot (IIsi, Centris 610, 660AV and Power Mac 6100 require Apple adapter)*
- *System 7 or later; Adobe Photoshop 2.5.1 or later*

*Note: Exact accelerated feature set may vary by Macintosh model. For best performance, RAM allocated to Photoshop should be approximately three times as large as the file to be processed.*

### Precision Color Pro

*#98862* **Precision Color Pro 24X Video Card** . . $1149.00
*#97892* **Precision Color Pro 24XK Video Card** . . $799.98
*#05893* **Precision Color Pro 8XI Video Card** . . . $479.98

The world's first graphic equalizer for color

### Color Composer

$249.98

Now you can have precise color consistency and control on-screen before you print! Color Composer gives you unparalleled control over the colors your monitor displays relative to your output device. This ensures the closest possible match between the color you see on-screen and the final printed piece. Radius *#92645*

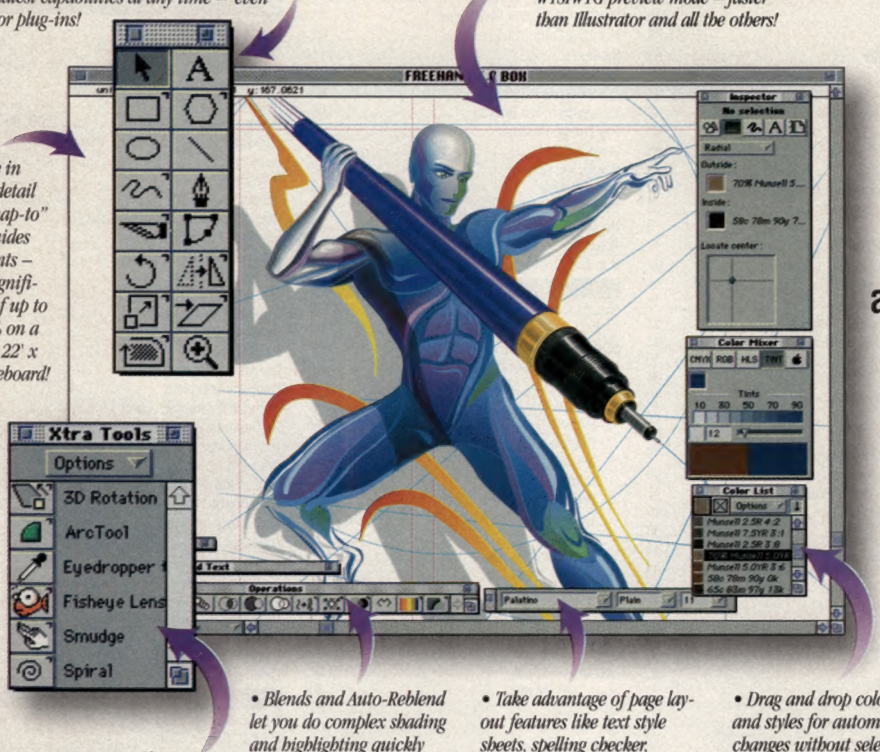
# Here's Your NEW #1!

## with FREE ClickArt Studio

• *FreeHand 5.0 is expandable! Its open architecture with support for drop-in interactive tools and palettes lets you add the latest capabilities at any time – even Illustrator plug-ins!*

• *Increase your productivity with automatic trapping and the fastest WYSIWYG preview mode – faster than Illustrator and all the others!*

• *Create in precise detail with "snap-to" grids, guides and points – plus magnification of up to 25,600% on a massive 22' x 22' pasteboard!*



• *Create amazing effects effortlessly with time-saving special effects tools!*

• *Blends and Auto-Reblend let you do complex shading and highlighting quickly and easily. Mutate one shape into another. And change blends at any time.*

• *Take advantage of page layout features like text style sheets, spelling checker, columns, search & replace, copyfitting, linked text blocks, even multi-page support!*

• *Drag and drop colors and styles for automatic changes without selecting individual objects – the fastest, most natural way to edit!*

**With a host of new features, FreeHand™ 5.0 is not only a dramatic improvement over previous versions, it's also superior to Illustrator 5.5. Faster and more versatile, FreeHand 5.0 gives you ultimate power and unlimited freedom for design and illustration. And it reads Illustrator files!**

# Powerful Software that Saves You Time & Money

*All-in-one graphics processing!*

## DeBabelizer Toolbox 1.6

$258.98 order item #98360

- Automate graphics production
- Translates between Mac, DOS/Windows, Silicon Graphics, Amiga, Sun and many more

*DeBabelizer Toolbox 1.6 includes a filter interpolation feature for modifying special effects from Photoshop plug-ins over a series of animation, QuickTime frames or still images.*

The new version of Equilibrium's award-winning DeBabelizer Toolbox now supports high-end animation formats from Alias, Electric Image, Softimage, Wavefront and Avid Technology's OMF (Open Media Format). And this production powerhouse continues to provide the versatile graphics processing tools and unrivaled translation tools DeBabelizer is known for. Plus, version 1.6 runs on both the Mac and the Power Mac. DeBabelizer 1.6 also adds precision tools for removing objects from solid-color backgrounds. And with the specially-priced bundle, you can combine the power and versatility of DeBabelizer with Macromedia Director 4.0 – the #1 multimedia authoring tool. Use them together to create dynamic, interactive presentations, entertainment and educational CD-ROM titles, videotape productions and more.

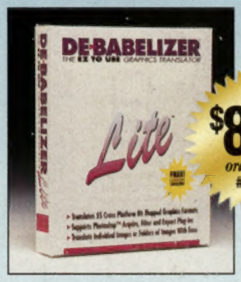
**SAVE $108.98** when you buy DeBabelizer Toolbox 1.6 and Director 4.0 together – two award winning products for one low price

$948.98 order item #93857

**COMPATIBLE FILTERS FOR TOOLBOX & LITE**

- Adobe Photoshop 2.0 & 3.0
- Andromeda-Series 1 & 2
- Fotomagic
- Adobe Gallery Effects 1, 2, & 3
- Kai's Power Tools 2.1
- Xaos Tools Terrazzo & Paint Alchemy

*Toolbox and Lite have unrivaled palette reduction with little or no significant loss of color integrity*



*Translate dozens of graphic file formats with ease!*

## DeBabelizer Lite

$84.98 order item #96901

With this one program, you can use, read, and save bit-map, scan or paint files from 15 Mac file types plus 40 more from DOS, Windows, Sun and others. DeBabelizer Lite offers the same translation capabilities as DeBabelizer Toolbox, without the image processing, palette manipulation, internal scripting or compositing features. And with its Slideshow feature, you can create on-screen thumbnails of a folder full of images which can then be translated automatically.

**SAVE $44.87** when you buy DeBabelizer Lite and Jag II together for only

$128.98 order item #92281
